

This invitation looks so beautiful but only takes about 20 seconds to assemble so you are going to have to pretend it took ages or your friends and family will think you have far too much time on your hands and will find you other jobs!

1. Print your invitation information onto the textured side of the 141mm Silkweave Ivory Cardstock (or a suitable alternative). The typesetting can be simple and you can add additional elements if you wish.
2. Get your 'Belle Fleur' Wallet (the pearls are already attached...yes really!) sigh deeply and allow yourself a few moments to admire it! Put to one side.
3. Take your pre-made Berisford's ribbon bow (hand made in Cheshire don't you know) and, erm, well...stick it centrally onto the wallet (just in the little 'v' in the middle), leave to dry.
4. Go "oh, is that it?"
5. With a flourish slide in your invitation insert and then decide what to do with the rest of your day! (A cup of tea and congratulatory cake would be a good place to start!)

← Awesomely quick!) x
