

'Belle Jardin' Recipe Facebook 29.5.13

You will need:

- OUR BELLE JARDIN BLANK LASER CUT CARD (LC03)
- 141MM CARDSTOCK (YOUR CHOSEN STOCK WILL END IN C-3; WE RECOMMEND SILKWEAVE IVORY (SW1-C-3))
- 15MM WIDE AND 10MM WIDE SATIN RIBBON (COLOUR OF YOUR CHOICE) WE CHOSE RIB 26-8 BRIDAL WHITE (COL. 419) AND RIB31-23 CREAM (COL. 50)
- EMBELLISHMENT (WE CHOSE OUR 'ESTELLA' CODE DEEST103)
- GLUES: SUPER-GLUE GEL AND A HOT GLUE GUN (GL25)
- WE RECOMMEND OUR IVORY ENVELOPES ENV02-28

This design is really easy to make as our beautiful 'Belle Jardin' does all the hard work for you! It's the perfect design for spring and summer weddings and so easy to coordinate with your wedding colour theme :)

1. Print your invitation information onto the textured side of the 141mm Silkweave Ivory Cardstock (or a suitable alternative). The typesetting can be simple and you can add additional elements if you wish.
2. Apply your adhesive (ATG tape or double sided tape) to the back of the printed card and carefully attach your printed invitation into the middle section of the Belle Jardin card.
3. Cut approximately 32cm of each of the two widths of ribbon and lay the 10mm ribbon on top of the 15mm ribbon (satin is best for this recipe!) Put a dab of superglue gel between the ribbons at each end just to secure them together
4. Turn the ribbon over so the 15mm is uppermost and place the Belle Jardin invitation face up (centrally) on the ribbon. Now fold the two ribbon ends in towards each other so the ends overlap. Using your superglue gel stick the two ribbons together (watch your fingers!) You might want to protect the invitation by slipping a piece of paper between the Belle Jardin and the drying ribbon. Once dry the band of ribbon should slide freely (but snugly) up/down the invitation like a 'belly band'!
5. Using a hot glue gun (we sell several) attach the 'Estella' embellishment (again protect the invitation beneath whilst doing this). Stand back and admire!

Isn't it stunning!!
