

# 'Shabby Chic' Cheque Book Invitation Facebook 23.5.13

## You will need:

- 'ENFOLIO' CHEQUE BOOK COVER (YOUR CHOSEN 'ENFOLIO' CODE WILL END IN E-21)
- 'ENFOLIO' CHEQUE BOOK PAPER INSERTS (YOUR CHOSEN 'ENFOLIO' CODE WILL END IN E-22)
- 'MARCELA JARDIN' DECORATIVE PAPER (CODE P88-I)
- 25MM SATIN RIBBON (WE USED RIB-27-31 KHAKI COL.80)
- 3MM SATIN RIBBON (WE USED RIB-01-36 PALE PINK COL.70)
- A4 SHEET OF CARD TO MAKE TAGS (YOUR CHOSEN 'ENFOLIO' CARDSTOCK WILL END IN C-6)
- DOUBLE SIDED TAPE OR ATG TAPE AND APPLICATOR GUN
- SUPER GLUE GEL
- BEAUTIFUL ENVELOPE OF YOUR CHOICE (CODE ENVO.4)

1. Firstly print your perforated inserts. The bottom one will be the perfect size but as you add each new layer trim 15mm off each 'Enfolio' Cheque Book Paper Insert, (from the non perforated end,) and format your print to fit
2. Layer and stick the inserts on top of each other using the double-sided tape or ATG so they are 'stepped' (see photo)
3. Cut your decorative paper to 9.5cm x 20.5cm and attach to the front of the chequebook; gently run your finger down the crease as you fold up the cover of the chequebook (3cm in from the 'spine' on the book).
4. To create the tag format a decorative border around the happy couple's names and wedding date (approx. 5.75cm x 3cm is about the right size) and fit as many repeats as you can on the A4 sheet/s of card. Print and cut out with a small trimmer or craft knife and metal ruler.
5. Matt and layer the tag with card and decorative paper and punch a small hole (a normal hole punch would be fine or an eyeletter if you have access to one), then loop your 3mm ribbon through the tag and, holding the two ends together tie a knot around the 25mm ribbon, and trim the loose ends short to hide behind the wide strip of ribbon.
6. Position the wide ribbon between the crease and the 'spine' and pop a spot of super glue gel behind the 'pinched' area of ribbon (this will secure the ribbon and stop the knot from showing/moving).
7. Secure the wide ribbon underneath the upper cover, (won't be seen!)
8. Stick the insert 'group' into the cover with the perforations just showing & glue the narrow area of the upper cover (between the crease and the spine) to the inserts to hide the ribbon! Team with a stunning envelope and amaze your friends!
