# Table Plans with Sumptuous Ribbons and Sparkle

For a specific colour theme, ribbon is a fabulous way to introduce and showcase colour in the table plan and there are many ways in which we use ribbon to create stunning designs.

For those with ribbons, bows, buckles and embellishments within their stationery suite ribbon can again be used to flow seamlessly through the day stationery and table plan.

Our beautiful British ribbons are of the highest quality and all our stationery and table plans are hand assembled, in-house' by our highly skilled, experienced and dedicated team.

## Guild Bow

The classic embellishment of a hand-tied satin bow can work equally well on a 'Printed and Embellished' table plan or a 'Multi-aperture' table plan. Beautifully effective with or without an accent Swarovski diamante or Swarovski pearl the bows add subtle elegance and this style of plan is incredibly popular for all celebratory events.

For a 'Multi-aperture' table plan our 'Guild Bow' design offers additional options:

- A length of ribbon running across the apertures with a centrally positioned bow (TP1)
- A single bow and crystal/pearl accent centrally positioned on its own matching the individual table apertures (TP2)
- Criss-Crossed ribbons in the top aperture with a bow positioned on the overlap (this style offsets the couple's names and the date to the right) (TP3)

TP2

Our vast selection of ribbons can be used to great effect to create a beautiful table plan that's perfect for your celebration.....

TP3

# Wide Guild Bow

Using 25mm satin ribbons creates stunning, sumptuous bows that exude romance and drama. Suitable only for 'Multi-aperture' table plans (due to their scale) with Swarovski Crystal highlights they make for sophisticated, opulent table plans.

The designs T1, T2 and T3 will work equally well for the Wide Guild Bow creating a table plan that will be a beautiful centrepiece for your event.

Beautiful British ribbons chosen to match Bridesmaids dresses or the main colour accent tie everything together with stunning results.....

# Laced Bow

This delicate design is best suited to a 'Multi-aperture' plan. Clever lacing of ribbon through the board stock creates delicate laced bows that are slightly more subtle than a traditional bow. Charming, stylish and elegant.....

# Regency

The Regency can be created in both a vertical or horizontal style for a simple, classic effect. Used vertically the whole plan is 'offset to the right' while retaining it's balance and beauty. Only suitable for a 'Multi-aperture' style of plan.

# Diamante Sparkle

We have one of the most comprehensive selection of diamante buckles and embellishments in the UK and with such a wealth of choice the design options are limitless. For sparkle nothing else compares.....for weddings, 'black tie' events, 'New Year's Eve' celebrations or indeed any special occasion they bring an unmistakable glamour. Coordinating stationery is available in many of these designs.

*Choices, Choices, Choices.....*

# The Ascot

This beautiful design that combines square, circular or heart shaped buckles with hand-finished bows. A style of table plan that oozes panache and style. Coordinating stationery is available in this design
