

# Table Plans—General Information

## The Handcrafted Card Company Ltd

Our table plans are available in a multitude of designs and in three delightful 'styles' :

### Simply Printed

Our 'Simply Printed' table plans are printed on beautiful high quality board/paper stocks and are embellished with Swarovski crystal accents that just catch the light. Each table plan is framed by an 'art quality' mount (bevel edged) and frame.

Subtle watermark imagery is overprinted with the 'Title Names', date, 'Top Table' and the guests table lists. The effect is romantic yet stylish. While it's the most cost effective style of plan we produce, the quality equals that of our most expensive, as the boards, mounts, frames and care taken is the same whatever style of plan we are producing.

### Printed and Embellished

Our 'Printed and Embellished' table plans are also printed on our high quality stocks and we have a fabulous range of embellishments to choose from.

As with our 'Simply Printed' table plans, subtle watermark imagery is overprinted with the text and each table plan is framed by an 'art quality' mount (bevel edged) and frame.

The defining style of this plan is the addition of bespoke embellishments (excluding our 'Guild Handmade Roses'). Tiny Swarovski crystals can also accent the table names/numbers and 'Title Names' at no additional cost.

### Multi-Aperture

Our Multi-Aperture table plans are undeniably the most popular style of table plan we produce. The 'Title Names', 'Top Table' and guest lists sits within its own double mounted aperture and is embellished to create your chosen design. Using our high quality board stocks and embellishments we create stunning table plans that coordinate seamlessly with your chosen stationery ensemble.

From sumptuous hand-tied bows to the drama of our 'Guild Handmade Roses' the table plan will be a stunning centrepiece as well as providing an essential service for your guests.

### Frames

We offer a choice of contemporary silver, gold, or black frames with the option of a slightly larger scaled 'Distressed Ivory' or 'Vintage' frame for an additional supplement.

All our frames are handmade to order by traditional framers with the same high attention to detail and care and attention we give to all our stationery—not one detail is left to chance.

# Ordering Your Table Plan

If you choose to order one of our plans, we request that you supply a simple list of your guests' names as a word file or similar, preferably approximately 4 weeks before your wedding. (Faxed or posted lists will incur an extra charge.) Please do not format lists to show 'layouts' as we will confirm this at the proofing stage.

If you require something a little out of the ordinary then there may be an origination fee but we would always clarify this before we begin. We email proofs and detailed records at every stage of your order to reassure you that your table plan and any additional stationery is in safe and experienced hands.

## Prices

| Number of Tables   | Framed Printed | Framed Embellished | Multi Aperture Framed |
|--|----------------|--------------------|-----------------------|

## Post and Packing

Your table plan is packed with the greatest of care and is dispatched usually a few days before the big day by courier so that it will be ready to take pride of place at your special event.
