

# Vintage Polka Dot Invitation with Ribbon Tie

Facebook 20/06/13

## You will need:

- ENFOLIO LARGE SQUARE CREASED CARD (YOUR CHOSEN BOARD STOCK CODE WILL END IN CC-15)
- 137MM LARGE SQUARE POCKETFOLD CARD MOUNT FOR THE FRONT OF THE INVITATION (YOUR CHOSEN BOARD STOCK CODE WILL END IN E-34)
- 141MM CARDSTOCK FOR YOUR INVITATION MOUNTED WITHIN THE CARD (YOUR CHOSEN BOARD STOCK CODE WILL END IN C-3)
- POLKA DOT FLOCK (IVORY) CODE P45-46
- RIBBON WE CHOSE BERISFORDS 10MM SATIN (R1B3)
- 'MAY ARTS' VINTAGE LACE RIBBON TRIM (TR09-1)
- 'PURE' EMBELLISHMENT (DEP-14)
- GLUES - GEM-TAC & ATG OR DOUBLE SIDED TAPE AND SUPER GLUE GEL

1. Print your invitation text onto the 141mm cardstock and mount on the right hand side of the inside of your card using ATG tape or double-sided tape.
2. Cut a square (approx 132mm x 132mm.) from your polka dot flock and, using ATG tape or double-sided tape centre it on top of the 137mm x 137mm cardmount, press down to stick.
3. Cut a length of lace (approx. 16cm) and position horizontally, about 3cm down from the top of the cardmount; trap it and glue it around the edge so the ends of the lace are hidden)
4. Stick your cardmount onto the front of the creased card making sure you centre it nicely
5. Cut a 60cm length (approx.) of the satin ribbon and attach at just one point using super glue gel (see the illustration below) so there is the same length of ribbon on the right hand for tying into a bow.
6. Using a 17cm, 2cm wide strip of the flock paper create a loop and secure, then wrap a loop of the ribbon around it and glue. To 'pinch' the bow and create the middle wrap a 3.5cm length of the flock strip vertically round the centre of the flattened loop and glue in place
7. Glue 'bow' centrally on top of the ribbon and stick on your embellishment using Gem-tac. (the 'Pure' embellishment is great as it's like a huge polka dot!)
8. Tie ribbon ends into a bow and trim ribbon ends to points.
9. Relax, safe in the knowledge you've created something wonderful to send your guests :)
