

Enfolio Pocket with Lace and Pearl Square Facebook 16.4.13

You will need:

- ENFOLIO POCKETFOLD (LG SQ) (YOUR CHOSEN BOARD STOCK CODE WILL END IN E-33)
- LACE (WE CHOSE TR09-I)
- EMBELLISHMENT (WE CHOSE DEFS-2)
- CARDMOUNT AND CARD STEPS (YOUR CHOSEN ENFOLIO POCKETCARD (LG SQ) CARD MOUNTS CODE WILL END IN E-34 AND CARD STEPS CODES WILL END IN E-35/36/37)
- GLUES - Gem-Tac & ATG OR DOUBLE SIDED TAPE
- VELCRO STICK-ON COINS

1. Assemble your pocketfold by folding the tabs on the pocket and securing them in place with ATG tape or double-sided tape. then, folding at the creases, create the shape of the pocket as seen in the picture.
2. Print your invitation text on your large square card mount and your additional information (directions, accommodation details, gift list etc. on the pre-sized card steps to sit in the pocket (we chose our Ivory Pearl which is perfect for inkjet printing).
3. Using the glue attach your lace (or ribbon) to the back of the pocket's flap (ideally near and edge for neatness), wrap it around the flap (having applied a little more glue), trim the lace (to overlap the other end slightly) and allow time to dry or press firmly.
4. Apply Gem-Tac to your embellishment and place centrally on the lace (using the point of the flap as a guide).
5. Using ATG tape run it around the edges of the back of the printed invitation card mount and carefully position it on the pocket as shown below.

6. Keeping the velcro coin together stick on the underside of the flap (not on top of the lace) and close the flap so the other side of the coin sticks to the pocket, then press and carefully separate the velcro.
7. Pop your printed card step enclosures into the pocket, close and admire!!

Ta Da!
